

Recommendation for Galaxy Construction roof work

We saw a referral for Galaxy Construction and decided to give them a call for a free quote for a new roof. In just a few days, Galaxy Construction's local representative, Eric Michaud, came to do the inspection. He was professional, courteous and thorough. He inspected our roof closely, and told us he found ample evidence of hail damage. He led us through the simple process of calling our insurance company for an inspection and quote. On the day our insurance inspector arrived, Mr. Michaud came along with field supervisor Omar Serna. Mr. Serna explained the procedure, and discussed our options while the insurance inspection was taking place. The insurance inspector agreed completely with Mr. Michaud's assessment and we were able to get a new roof covered by our insurance!

The roofing process was amazing. Galaxy installed much better quality shingles, better ventilation system, used more nails than required by industry standards, replaced flashing, drip edges, etc..., did the job quickly, and cleaned the yard up when they were finished. Our new roof looks beautiful and will keep our home much safer now.

We are so grateful for the professional job done by Galaxy Construction's Omar Serna, Eric Michaud, and crew. 5 stars from the McCluneys!
